Santiago Vallasciani - Division Chief Pediatric Urology at Sidra Medicine.

Anananda Nacif Nunes - Physiotherapist/ Urotherapist at Sidra Medicine.

Samar Magboul - General Pediatrician Attending at Sidra Medicine.

We are delighted to announce the upcoming International Children's Continence Society (ICCS) Course in Doha, taking place on April 18th (Friday) and 19th (Saturday), 2025. ICCS is one of the most renowned international institutions dedicated to the study and management of neurogenic and non-neurogenic bladder and bowel dysfunctions. This year, we are honored to welcome esteemed members of the ICCS board as speakers.

We aim to promote high-quality, evidence-based education and training while supporting professionals in the Gulf region as they navigate challenges in clinical practice.

## Key Topics

- Enuresis, bladder and bowel dysfunction, neurogenic bladder
- Diagnostic tools: Uroflowmetry, urodynamics, ultrasound, bladder diary
- Treatment approaches: Pharmacological management, behavioral modifications
- Latest updates on common functional pathologies
- Interactive clinical case discussions

## Who Should Attend?

This course is designed for professionals internally and across the **GCC region**, including:

- General pediatricians
- Pediatric urologists & nephrologists
- Specialized nurses & nurse practitioners
- Physiotherapists
- Urotherapists
- Psychologists
- Fellows & Medical Residents
